Good morning,

Today☺. I didn't have them with me and we were out yesterday too.

Do you still want me to change addressed to resolved on the Temp policy or are you going to change it on final document?

Regards,

Yo

we'll change it on the final document. I want to get it finalized and we can make changes where needed after signed.

Robert,

Here is what I have:

- **Discussed finalization of Temp Water Line Policy**
 - Targeting Feb. 1st release
- **20' workspace**
 - On a case-by-case basis
 - 20' workspace may be allowed unless there is an existing road or ROW that has not been reseeded
 - ROW's that have been granted next to an existing ROW that has been reseeded are not allowed additional 20' workspace
- **Electric poles**
 - A company was asked to provide GIS location of every pole on ROW
 - BLM communicated that is not a requirement but could be an exception dependent on arch or other surface constraints
 - May need to move poles 5-7' away from Yucca plants dependent on height of plant
- **BLM will work on training issues within CFO**

- COA templates
- 3rd party EAs
- Turnaround times of ROWs
 - CFO's goal for 2018 is to issue ROWs within 60 days of complete application
 - Keep in mind any changes to application starts process over and 60 day clock restarts
 - There will no longer be any grant corrections
 - Trying to address backlog
 - Operators are asked to rescind any applications that are no longer needed
 - Roswell Realty Specialist being trained to work on CFO APDs

Does this match what you have? Did I miss represent anything?

Regards,

Yo

Buenos Dias,

I know there is a government shutdown but just thought I'd check if you were okay with the notes below in case you're still checking emails.

Regards,

Yo
